

NASSAU Industrial Doors helps to make a new landmark

NASSAU Industrial Doors Ltd of Stoke-on-Trent have just helped to create one of the new leading landmark buildings on the busy M6 motorway at Wednesbury when they supplied and installed all the door and docking solutions for the eye catching “Checked Red, White and Grey” Storagebase building on behalf of the MCS group. The work that was completed in 2014 saw a series of Insulated, Fire Rated, Personnel and High Speed doors purpose built for the project and matched with bespoke docking solutions that included a Dock Leveller with Traffic Light dock shelter and buffers.

NASSAU Industrial Doors Ltd was established in 1990 and is the main distributor, installer and service agent in the United Kingdom of NASSAU sectional doors, DYNACO high speed doors, Bespoke Roller Shutter solutions, Steel Personnel and High Security Doors as well as Docking Products. Having provided high quality door solutions for the last 24 years, NASSAU prides itself on leading the way in bringing the most innovative products to the UK industrial, retail and commercial markets.

MCS Group Ltd of Claverdon, Warwickshire are building contractors working within the motor retail, commercial, industrial, residential and educational sectors from new build to refurbishments projects. Their Main Contracting division, MCS Build has vast experience of delivering complex extensions, fit outs, refurbishments and new build projects. The MCS Group pride themselves in delivering quality, cost effective and on time project solutions across the UK.

Tim Perkins, Construction Director at MCS Group Ltd said, “We would like to thank NASSAU Industrial Doors Ltd for all their hard work and efforts that enabled us to deliver this project successfully and we are looking forward to working with them again throughout the rest of 2014.”

This is just one of the many contracts that NASSAU has worked on across the whole of the United Kingdom. Having local sales executives and independent mobile engineering teams located up and down the country means that they can respond to your exact needs as and when you need them. From concept design to installation, NASSAU work with you to ensure that the right product, be it a NASSAU Sectional Doors, a DYNACO High Speed Door or a Bespoke Roller Shutter solution is sourced, supplied and installed on time.

Alongside this NASSAU offers a full nationwide servicing department that can tailor make a service contract for your business. Having your door solutions serviced on a regular basis not only meets Health and Safety requirements but also prolongs the life of the door, so saving money across the business.

NASSAU Industrial Doors Ltd is a proud member of the AM Group of companies around the world and holds recognition as a member of the Door and Hardware Federation, CHAS, Safecontractor, Constructionline and ISO9001:2008 which means you are always in safe hands.
